Cancel

Verify

- 1- Select Notify me through app.
- 2- write your mobile number.
- 3- Select Authenticator app or token check box.
- 4- Click on Set up Authenticator app.

Additional security verification

When you sign in with your password, you are also required to respond from a registered device. This makes it harder for a hacker to sign in with just a stolen password.
[View video to know how to secure your account](#)

what's your preferred option?

We'll use this verification option by default.

Notify me through app

how would you like to respond?

Set up one or more of these options. [Learn more](#)
